Met some really interesting people after the show. We might get together at some point and try working together. Would be fun.

Working on new songs, lots of good stuff coming out, this week was inspiring.

### 'usiness Rolls Along

By LES LIEBERMAN  
Cover of the New York Times  
The 1971, the 1971-72 season has been the most successful in the history of the fashion industry. It is the result of a number of factors, including the opening of new markets in the United States and the rise of the fashion industry in the United States. The fashion industry has been a major force in the economy, and it is expected to continue to grow in the years ahead.

**"...Every Celebrity, Musician, or Model you see in this magazine is an offshoot of her essence. The great thing about Suzi is that she is not dated in her style; she is not this sad thing who is in some retro time warp. I would say neo-classic, she evolves..." - John Slattery, Wanted**
